

The
Forward
C. P.

I saw the movies of the Turtle Race last Friday night. They were taken Race Day by Bill and Prudence Underhill and shown at their 29 Palms theatre last week. Altho short, they were very good and created lots of favorable comment by the few Joshuans who saw them. The color added a lot to the subject matter and Bill's running comment about the scenes was enjoyed by the audience. If you get a chance again to see them, don't pass it up.

The following adventure struck me funny and is good for retelling.

A fair visitor to our city, with a party of friends, happened into a neighboring emporium of chance last week. It was her first experience in the professional haunts of Lady Luck and she became intrigued with the galloping dominoes. When it was her turn she picked 'em up and proceeded to make 8 straight passes. The croupier, not believing she was a novice, asked her to roll 'em out of a cup.

"Why," exclaimed the fair one, "I don't want to use a cup. I'd rather roll them like my husband and his friends do on the kitchen floor at home."

But she accepted the cup and made three more straight passes and piled up a sizeable profit. The croupier fainted and the lady walked away with a right smart chunk of the house mazuma.

We hesitate to announce ball games with out of town teams because of the non-appearance last Sunday night of the Cub's scheduled adversaries. The local team made the announcement in good faith, so here we go again. It is expected that the Mexican Colony team from Palm Springs will be here for a game this Friday night. They have played before in Joshua Tree and asked for the game this week. Let's give them a whirl and turn out for the competition.

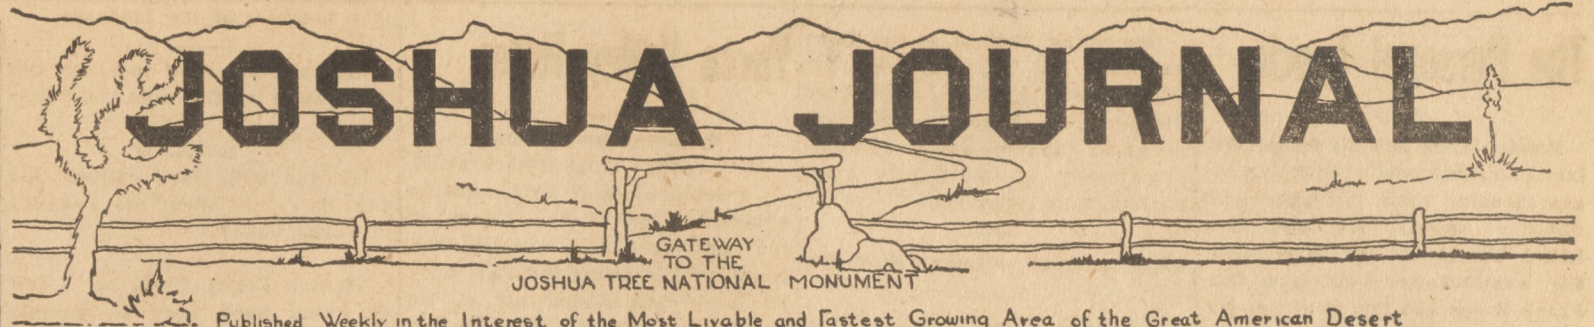

PTA Aids Boys Club Program

The Joshua Tree PTA board members, meeting at the home of Mrs. Gerald Papendick last Tuesday afternoon voted to contribute \$25.00 to be used for the purchase of tools and craft equipment for the Boys Club. Kenneth L. Williams was appointed chairman of the Youth Activity committee to confer with Robert Larsen who is directing the Boys Club program. The committee will also supervise the purchase and installation of playground equipment for the use of all Joshua Tree youngsters at the school grounds.

Announcement of other summer activities will be made soon.

Present at the Tuesday meeting were Mesdames Nellie Decker, Gerald Papendick, Fred Marble, Harry Wheeler, Clea Clark, Mayme Delaney and Mr. Kenneth L. Williams.

The August board meeting will be held at the home of Mrs. Mayme Delaney.

Mining Boom Touched Off By Gold Law Quirk

New Bunker Executive Plans Home Here

Mr. and Mrs. Forrest Summers of Los Angeles, spending the weekend in Joshua Tree, have become enthusiastic about the Joshua Tree area and are planning their new home in Sun Valley. Mr. Summers has purchased an interest in the Bunker Land Company.

"I have made a thoro investigation," said Summers to a Journal representative, "of many desert and mountain regions before deciding that this area offered the best possibilities for future development. The wonderful opportunities for health and recreation, plus possible industrial projects, can contribute immeasurably to the prosperity of the Sun Valley - Joshua Tree district." I am sure also that the completion of the new road thru to Colorado River and Arizona points will be of great benefit to this entire area."

Mr. and Mrs. Summers intend to raise turkeys in Sun Valley, too. Mrs. Summers shares her husband's liking for the desert and is eager to start their new home.

Summers announced that Mr. and Mrs. E. L. Bereman of St. Cloud, Florida, his mother and step-father, will leave soon to establish a home here.

With the Summers last weekend were Mr. and Mrs. A. H. Wilson of Oakland, California, who made a special trip to look over this desert region. Mr. Wilson is a brother of Mrs. Summers.

Coffey Leases Kenney Fountain

Tommy Coffey, formerly of Los Angeles, last Thursday started managing the soda fountain and lunch counter at the Kenney Drug Store in 29 Palms. He leased the fountain from Ed and Margaret Kenney, proprietors.

The new fountain operator was for 18 years manager of similar departments for Owl Drug Company west coast stores. For the two years prior to coming here Coffey supervised a number of fountains for the United Cigar-Whalen chain.

With Tommy will be his wife Mary and daughter Peggy Joy. The Coffeys have two sons, Jerry, 12, and Larry, 8. They will make their home in the Hansen tract in 29 Palms. Tommy hailed originally from Memphis, Tennessee.

County Officials Discuss Plans With Chamber Directors

Bob Covington, San Bernardino County planning commissioner, and Howard Way, County surveyor and member of the planning commission, met with the officers and board of directors of the Joshua Tree Chamber of Commerce Tuesday night at the home of secretary McMillen. The meeting was in response to an invitation issued by the board.

Plans for a uniform planting and beautification program for this community were discussed. Both Way and Covington advanced many good ideas for the future development of Joshua Tree. A contest in which all citizens can participate was suggested and taken under advisement by the directors. Both officials praised the Chamber of Commerce for its activity in planning for civic betterment and its cooperation with County authorities.

The regular membership meeting last Friday was cancelled because of many conflicting gatherings.

Stop Signs Replaced

Amazed looks on the faces of motorists were common last Friday. The reason for the puzzled expressions was the erection of two stop signs on the 29 Palms Hiway at the intersection of Park Boulevard by the hiway crew from the San Bernardino County Office. Obtaining the county authority for the signs was a Chamber of Commerce project of a year ago, but due to some misunderstanding the signs had been placed on the boulevard entering the Hiway and for months the Chamber thought something had gone amiss. Your Journal correspondent conferred last week with A. W. Walker, County Secretary of the Chamber of Commerce and learned the ordinance called for a full stop by all vehicles going thru town on the Hiway.

Thanks to Mr. Walker and the County officials Joshua Tree is now considerably safer for school children and all pedestrians. The long grade west of Joshua Tree is a temptation to passenger drivers and truckers alike to let 'er roll, but now the speed demons must stop — and then proceed at a reasonable pace.

Placer miners and prospectors in this area and in the gold mining regions of northern California are looking with renewed eagerness for the precious yellow metal since release of stories by newspapers and mining journals to the effect that placer gold is exempt from provisions of the Gold Recovery Act. It was reported that the U. S. Treasury department had ruled that placer gold can be legally sold in the United States and its possessions for the highest price the seller can get.

Hiway Group Will Meet at Parker

Members of the Baseline Hiway Improvement Association from the communities along the western stretch of the road will journey to Parker, Arizona, on Friday to meet with members in that area at 8 p.m. Enroute they plan to stop where the improved road joins the pavement west of Rice to inspect the work done so far.

At meetings held since the organization of the Association some changes were made in the officers and members of the board of directors. Because of ill health and the doctors orders John Headley of Yucca Valley resigned as secretary and Gerald McMillen of Joshua Tree was appointed to fill the vacancy. New directors elected are John Headley, Floyd Seavey and Dr. Thomas B. Sowell of Yucca Valley; John L. Duncan and Jack J. Crane of Joshua Tree; and Al Gahagan, Nellie Bush and Glen Strom of Parker. Directors from Morongo Valley will be elected at a future meeting.

Informal solicitation for funds to further the road project is going on now and plans for a well organized intensive drive are in the final stages of preparation. Interest in the improving of the direct road to Parker has been steadily increasing among members of the various communities that will benefit as well as industries and ranchers all thru this desert area.

It is expected that a large caravan of cars will make the trip to Parker on Friday evening.

Rate Increase Granted Power Co.

After a nine months period of consideration the Public Utilities Commission has awarded permission to the California Electric Power Company to increase its rates for electric service. The company's application for rate increase was brought about by increases in the cost of practically everything used in their business, a company spokesman pointed out. Since 1940, they say, labor costs have gone up 80 per cent, taxes have increased 147 per cent, poles are up 72 per cent, copper wire 77 per cent, and fuel oil used to generate electricity in steam plants is up 173 per cent. As against these increases their rates, which have been steadily reduced during the past 25 years, are

the same or even lower than before the war. The result is that their earnings have been reduced to a point below the minimum generally conceded as necessary.

The increase, as explained by (Continued on page 4)

On the basis of the ruling many mining properties in the northern counties are being reopened. Increasing placer activity is occurring in many widely scattered localities.

This activity is reflected in the Joshua Tree area as many local miners are stepping up their activity and prospectors are looking with more care at all likely ground. W. D. Jenkins, local discoverer of a reputedly good source of several metals, stated that the ruling should be of great benefit to this region and would undoubtedly be a boon to local miners. He did not state to what extent the gold boom would affect the operations of his property.

Direct benefits were noticed here last weekend when the 35 or more workers on the Jenkins property received their pay. More real cash was in circulation than has been seen in some time.

Reliable sources report that good quantities of silver and lead have been located and filed on in this area.

Jenkins was favorably impressed by the activity of the Baseline Hiway Improvement Association in pushing thru the road to the Colorado River. He stated that in his opinion, it would benefit general business as well as the mining industry.

Mrs. Dunlop Buys Overbay House

Mrs. Stasia Dunlop announced last week that she had purchased the home on Sunburst Circle built by Jeff Overbay and adjoining her apartments that are located at Desertair Road and Sunburst Circle. The new home is a two bedroom, cement block residence. It was a cash transaction between the parties. The amount was not disclosed.

The same or even lower than before the war. The result is that their earnings have been reduced to a point below the minimum generally conceded as necessary.

The increase, as explained by (Continued on page 4)

The Personal Touch

Robert Wiser and his friend Willard Bain, stationed at Norfolk, Va., are spending their furloughs with Robert's parents, Mr. and Mrs. Lloyd Wiser. At the Wiser's for the weekend were Mr. and Mrs. Frank Bryan and family of Los Angeles. Mrs. Bryan is a daughter of the Wisers.

Mr. and Mrs. R. Herring and Mr. and Mrs. T. Hitchcock of Whittier spent the weekend making final arrangements to complete the sale of their home to John Dobbings, formerly of Los Angeles.

B. D. Irvines of Long Beach were guests of Mr. and Mrs. F. F. Brant-hoover for a few days last week.

Cigars, Cigarettes — The Gift Box

Mr. and Mrs. John Beckwith and daughter Barbara were weekend guests at Desert Air Lodge. They are from North Hollywood. Edward Griffith of Laguna Beach spent a few days at the Lodge. He is quite enamoured of the desert.

Margret Bair spent the weekend as a guest of Lois Ashby in Ocean-side. The sea breezes were almost as good as Joshua Tree air, Margret reports.

Quality Furniture—Lyons Furn. Co.

Mrs. May Beckwith of Desert Air Lodge was badly burned about the face, arms and legs last week when accumulated gas in a stove exploded. She was treated by Dr. William Ince of 29 Palms and is recovering at her home.

Frank Cook of Richland, Washington, spent several days last week visiting his parents, Mr. and Mrs. Frank Cook. He is employed at the atomic plant in the northern city. It was Frank's first visit to our desert and he plans to move here some time in the future.

Interesting visitors at the Journal office last Thursday were Edwin J. Miller and Dr. James Riley Clark of Los Angeles. They are president and program director, respectively, of the Illinois Association of Los Angeles.

Patio furniture — Lyon's Furn. Co.

A surprise party for Mrs. Ray Rees was held at her home last Wednesday on the occasion of her birthday. Instigated by Ray, it was reported a complete surprise. Friends who enjoyed the afternoon with the honoree were Mrs. Margret Bair, Mrs. R. K. Fields and her mother, Mrs. Bacon, Mrs. Charles Mitchell, Mrs. Frank Cook, Mrs. G. W. Ojala, Mrs. Virginia Hurling, Mrs. Robert Larsen, Mrs. Harold Jost, Mrs. M. J. Malia and Mrs. Evelyn Barnes.

Mr. and Mrs. Bob Miller of Riverside, whose marriage was recently announced in the Journal, were entertained at the Robert Kroes' last Wednesday evening at a shower. Other Sun Valley friends who honored the guests were Mr. and Mrs. P. A. Dutton, Sr., and the Duttons, Jr. The Millers will stay a week at the Kroes' home.

Charles Phillips returned last week after a vacation visit with his daughter and her family at Forest Home.

Little Marilyn Coulter had her tonsils and adenoids out at Redlands Community Hospital last Friday morning. She was up and about the next day apparently feeling fine.

John L. Duncan was elected a member of the board of directors for the Joshua Tree Ambulance Association last week. He replaces Mrs. George Beard.

Yucca Valley Notes

By Mrs. Frank Harmon

Mr. and Mrs. Tom Humphreville, Jr., celebrated their sixth wedding anniversary last week. To add to the festivity of the occasion Mrs. Humphreville won a radio given by Jo and Frank Richardson at the opening of their new cleaning establishment.

Bartie Van Camp is spending a few weeks with his grandparents.

Mr. and Mrs. Jack Mitchell flew in from Los Angeles and are guests at Lombardo Motel.

Mr. and Mrs. Bud Dalton and sons Bobby and David are guests of Mrs. Dalton's parents, the W. C. Lindsays. Spending the weekend, too, were Mr. and Mrs. John Alman and daughter. Mrs. Alman

Weekend guests at Golden Tree Lodge for the weekend were Molly Malone of Hollywood, well known radio star and Joshua Tree booster, and Edith McNamara and Clara Gruber of Los Angeles.

Mrs. Helen Steffen of Los Angeles was a weekend guest at Mira Monte Courts.

Mr. and Mrs. B. B. Wilds, Mr. and Mrs. Meredith Willey, Mr. and Mrs. Robert Larsen and Mr. and Mrs. G. O. McMillen picnicked at Morongo Lakes Saturday and returned with a couple dozen trout they caught.

Mr. and Mrs. James Goebbels have moved from Sun Valley to one of Frank Cook's cottages in Joshua Tree.

Mr. and Mrs. Arthur Haynes of Los Angeles spent the weekend in Joshua Tree. They were guests at Mira Monte Courts.

is a daughter of the Lindsays.

Lillian Clark took the tiny tots for a swim at 29 Palms on Saturday.

Mr. and Mrs. Dave Phillips' son and his family spent the weekend in Yucca Valley.

Visiting Denny Clark for a few days last week were his parents and sisters.

Office furniture—Lyon's Furn. Co.

The Boy Scouts, their families and friends, spent an enjoyable day last Tuesday at the Livingstone's plunge. This will be a regular Tuesday feature thru the summer, thanks to the generosity of Al Livingstone.

Guests of Mrs. Lillian Clark are her sister, mother and cousins.

Mr. and Mrs. Ross Johnson and Mr. and Mrs. F. Freese spent Tuesday in Banning on business.

Mrs. Howard Heard and children spent several days in San Bernardino last week.

Mr. and Mrs. J. Schuern are away for a week on vacation.

Pop Hardesty has gone to San Diego for a few days.

Mr. and Mrs. Carl Miller and family spent the weekend in Los Angeles.

Newspapers — The Gift Box

Denny Clark took the boys of

the Bible Class on a trip to Black Rock Canyon last Thursday evening.

Harry and Mildred Ahrens of Apple Valley spent the weekend in Yucca Valley.

Mrs. Al Hoffar's grandson, Walter, of Bell Gardens is spending a week with her.

Fred LaFerney purchased the windmill from the school at Yucca Valley and will move it to his acreage on the hill.

Mr. and Mrs. Don Van Camp spent a few days in Pasadena last week. Mrs. Van Camp will remain there for an indefinite stay.

Mr. and Mrs. Frank Kirby are spending a few weeks in Yucca Valley. They have two duplexes on Bannock Trail.

G. H. Hall of Ojai is visiting Mr. and Mrs. H. S. Baker and Miss Olive Borde of Yucca Valley.

M. B. Ray and son of Anaheim were guests at Mr. and Mrs. Fred LaFerneys for three days last week.

Mr. and Mrs. Charles Gross of Hollywood spent a short time with June LeMert Paxton. The Grosses plan to build a home in the Valley this fall.

Morongo Valley Notes

By Ruth Hale

A widespread publicity campaign, sponsored by the Chamber of Commerce, is being carried out here in the Valley, by placing posters on cars reading, "Morongo Valley—Cream of the Desert."

James H. Tiffany of San Jose and San Francisco, spent a few days at Palm Wells Valley with his mother, Mrs. Ruth Hale. He told his mother that before he came, he wondered how anyone could spend a summer in the desert. After his first night here he was so intrigued by the clear fresh air and the beauty of the Valley that he wishes he had planned to stay longer.

Congratulations are in order July 17th to Bernard and Marie Arnold on the completion of their third year in business in their Variety Store. They have gone far in these three years, for when they came, they set up business in a tent. They then moved to the Texaco Station and last year moved into their new store.

Both Mr. and Mrs. Arnold have shown rare courage and cheerfulness in the many ups and downs that have come as they have pioneered in a young but growing community.

Best wishes for many years of ever increasing business to Bernard and Marie!

Ceramics — The Gift Box

Pat Fobes who has been in State wide beauty contests has been chosen by King Robey, a big Broadway show producer, to go to New York City. When she was auditioned, she competed against various queens from all over the State as well as many professional models. Pat is known as Miss Morongo.

Pat is the daughter of Mr. and

Mrs. Kenneth Fobes of Palm Wells Valley, Morongo, and of Pasadena. Pat will be chaperoned by her mother. Who knows, Morongo Valley may have National advertising through Pat as Miss Morongo Valley.

Chrome Sets — Lyons Furn. Co.

Roberta and Peter Browne who have been visiting Mr. and Mrs. Paul Thomson, have returned to Palo Alto by plane. Their father is a leading orthopedic surgeon in Palo Alto.

Charlotte McCracken is visiting friends in Santa Monica.

Mr. and Mrs. Joe Carmon of Morongo and Los Angeles, who have big plans for their place here, are drilling a well on their property.

Mrs. John Lieck of Los Angeles and her son Jay will return to their home this week. They have made a five week stay here. Mr. Lieck's sister has spent most of the time here as their guest. Mrs. Joe Lombardi of Santa Monica was a weekend guest. Mr. Lieck has spent his weekends with his family.

Wm. Putman was recently elected to the board of the Chamber of Commerce.

Jimmie Freeman wishes to thank the people of the community for the donations collected by him to buy a Fire Siren. People gave so graciously for this project that the necessary funds were in hand in less than two weeks time. Wm. Putnam and Mr. Freeman have located a fine Air Raid Siren which will soon be purchased and installed.

Mrs. Carl DeLand left Monday for Seattle where she will visit her daughters.

Dick Scott has entered the United States Air Forces and is training in San Francisco.

Mr. and Mrs. Bernard Arnold entertained Mrs. Ballard at a buffet supper on Wednesday evening.

The Inns, hotels and restaurants report a busy time this weekend.

Mrs. Alice Kinsley and her two grandchildren, Bradford and Sharon Sales spent the weekend in Los Angeles.

Mrs. Arthur Staniford of Pasadena with her son Phillip spent several days at their "Shack" in Palm Wells Valley.

Mrs. Gene Cubit has returned from a visit to Birmingham, Ala., where she visited her family for several weeks. Her sister-in-law came with her and when they were driving thru Texas she received injuries when they were caught in

a storm. Mrs. O'Stene suffered several broken ribs and is here in Morongo recuperating.

Heywood-Wakefield-Lyons Fur. Co.

Marilyn Kinsley was a recent guest of her mother at Palm Wells Ranch. Marilyn is now working in the picture, "The Bride" starring

Ave Gardner with Robt Taylor as co-star. Marilyn was Ava's stand-in for some time but has a good role in this picture.

Mr. and Mrs. De Faus Geil took a vacation last week. Mr. Geil went to Big Bear to fish and Mrs. Geil visited friends in Burbank.

POLIO AND GARBAGE DISPOSAL

In the column sponsored by the San Bernardino TB and Health Association in this week's issue the point is made that poliomyelitis can be caused by flies that breed and feed on exposed garbage. Late summer and early fall are particularly bad times for the spread of polio or "infantile" paralysis.

Here in a new community where sanitary facilities are seldom if ever inspected we should be especially careful to avoid sickness and disease. Pit or incinerator burning at least once a day will help destroy garbage. Shallow burying is not effective because dogs and coyotes can easily find and dig out garbage so disposed of. Accumulations of garbage in open cans or cardboard containers are an invitation to flies and other pests. They also indicate thoughtlessness or indifference on the part of householders who do not take proper health precautions.

If you value your health or that of your neighbor and his children you can help by maintaining sanitary conditions in Joshua Tree. Pride in our home surroundings and in a fine health record for our town should keep us from becoming lazy or careless in disposing of garbage.

Rate Increase Granted

(Continued from page 1)

Elmer Katzenstein, district manager for this area, will average about 8 per cent for domestic and commercial power, 9 per cent for wholesale and agricultural users, and 16 per cent for delivery of power for resale. The increase will be effective August 1st. These percentages are overall averages and

as soon as scheduled increases affecting this area are determined they will be made public.

In asking our customers to pay higher rates, said Katzenstein, the Company is not seeking larger profits, but rather it hopes to be placed in a position with respect to earnings that will enable it to continue to render an ever-improved service to customers at a cost consistent with financial safety and fair treatment for their employees.

Lowly Philosophy

By JUNE LeMERT PAXTON

THE JOSHUAS

Several weeks ago I wrote this column on religious tolerance; it has been a long time since I have received as many encouraging letters about an article. Even strangers came to my cabin to express their appreciation. At first I hesitated in writing anything so personal, and yet I believe that at times, if need be, one should share even part of one's self to help another.

By that remark I do not mean that we should go about broadcasting, much less weeping on another's shoulder. But often it helps us when we can see that another, not because of, but in spite of his problems, enjoys a full and victorious life.

If it is our deep desire, a victorious life will be ours, regardless of our handicaps, when we respond to the challenge to raise our thoughts and our ambitions to a higher level of consciousness.

Platform Rockers—Lyons Furn. Co.

Groups Change Meeting Dates

A change for the summer months will be noticed in the Church Notes column regarding the Christian Science Society. They have discontinued the Wednesday evening services during the months of July and August.

The Sun Valley Club, in order to avoid conflict with many other organizations, has changed the date of its regular meeting from the last Friday of each month to the last Thursday. The regular meeting place is announced by Robert Tootle, secretary, to be at the lounge at K Field airport a mile from the 29 Palms Hiway on Sun Valley Road. Meetings will be called to order at 8 P.M.

Fancy Door Prizes Won By Bingoers

A pair of matched boudoir lamps was the first door prize at the Sportsman's bingo game last Friday night at the Club Hall. Mrs. Margaret Kasal was the lucky winner. Second prize of a decanter and glass set went to Mrs. Virginia Hurling. Both prizes were from Wilson's Home Furnishings. The third prize was taken by Charles Krause. It was a car wash job at Garry's Shell Service. Charley won a wash job at Don's the last time he played bingo. The consolation prize, a nail clipper, went to Dr. Louis Sinclair. June Houghton was winner of the big cash award of the evening. The Jumbo award has not been touched yet.

In charge of refreshments were Mrs. Nellie Decker and Mrs. Gerald Papendick. Sportsman's Club members who staged the affair were John Coulter, Bob Garry, Harry Wheeler, Joe Wagner, Don Houghton and Frank Leyhe.

For Finer Canned Fruits

By BETTY BARCLAY

These simple-to-make, easy-to-use canning syrups are made with water, corn syrup and sugar. They will bring out the true fruit flavor, enhance the texture and give a beautiful sheen to your canned fruits.

Canning Syrups

Ingredients	For 8 Quarts of Fruit			For 1 Quart of Fruit		
	Thin Syrup	Medium Syrup	Heavy Syrup	Thin Syrup	Medium Syrup	Heavy Syrup
Water	7 cups	6 cups	5 cups	1 cup	¾ cup	½ cup
KARO Syrup* Red Label	1 cup	2 cups	3 cups	3 tbs.	¼ cup	½ cup
Sugar	2 cups	3 cups	4 cups	¼ cup	6 tbs.	¾ cup

Put water, KARO Syrup and sugar in saucepan; bring to boiling point. Remove from heat. Use hot for packing fruit.

*For Blackberries, sour cherries, sweet cherries or plums KARO Syrup Blue Label may be used.

Canning Guide

Fruit	Apples	Black-berries	Cherries Red Sour	Cherries Sweet	Peaches	Pears	Plums
Suggested Canning Syrup	Thin or Medium	Medium or Heavy	Medium or Heavy	Thin, Medium or Heavy	Thin, Medium or Heavy	Thin, Medium or Heavy	Thin, Medium or Heavy
Processing Time: Boiling Water Bath Minutes	15	20	20	20	20 to 25	20 to 30	20

Directions for Canning

1. Use ripe, firm, sound fruit. Work with small batches. Handle gently; work quickly.
2. Wash, using spray; peel, hull, stem and pit according to fruit used.
3. To help prevent discoloration, fruits like apples, peaches and pears may be placed in weak salt solution—1½ teaspoons salt or 1 tablespoon lemon juice to 1 quart water. Place in solution; as peeled, until all fruit is ready to pack. Rinse in cold water before packing. Drain.
4. Follow proportions and directions in canning syrup chart for making and using syrup.
5. Use only jars, lids and screw bands in perfect condition. Follow carefully manufacturers' instructions for use.
6. Wash jars, bands and lids (except self-sealing lids) in hot soapy water; scald thoroughly. If self-sealing lids are used, scald. Place in hot water until needed. Remove jars from water and place on wooden, cloth or paper surface.
7. Pack prepared fruit into jars; arrange compactly without crushing. Fill jars to within ½ inch of top, using about 1 cup syrup for quarts, ¼ cup for pints. Run scalded knife blade around inside jar to remove air bubbles. Wipe edge with dampened cheesecloth.
8. Seal according to manufacturers' directions.
9. Process in Boiling Water Bath (see Canning Guide). Place jars on rack; cover. Be sure water is boiling and at least 2 inches above tops of jars. Keep water boiling continuously.
10. Remove from Boiling Water Bath at end of processing time with jar lifter or tongs. Place away from drafts. Allow jars to cool. Test jars for leakage. If seal is incomplete, reprocess for full time.
11. Have jars clean and dry before labeling. Store in cool, dark, dry, well-ventilated place.

Canning or Freezing of Apricots

Apricots, one of America's favorite fruits, are now ready for canning or freezing. Whether you can or freeze them, use the method that will give best results, says Mrs. Emily Parker, Assistant Home Demonstration Agent.

For canning, apricots should be firm, well colored, but not over-ripe. To peel, dip in boiling water for one minute, plunge into cold water, and peel. Apricots may be canned without peeling. Leave whole, or cut in halves and remove pits. Place in hot jars and cover to within one half inch of top with a medium syrup. Adjust lids and process in a boiling water

bath for twenty minutes. For full information, phone or write the Agricultural Extension Service, Room 7, Post Office, Riverside.

To freeze apricots, select mature fruit, just table ripe. It should be firm and well colored. Peel, cut in quarters, or slice into cold sirup. The cold sirup is made by combining three cups of sugar to one quart of cold water. Pack in suitable containers, cover with sirup, leave space at top of carton. Seal and freeze at once.

Free leaflets on canning and freezing fruits and vegetables may be had on request from the Agricultural Extension Service.

Fire Company Looking for Pump

The Joshua Tree Fire Company is in the market for a good used centrifugal pump for installation on its truck, reports Foreman Bob Garry. A new one is apt to be too expensive for the Company with its limited treasury. Information regarding a used pump of the proper type can be given to Bob or any

member of the Fire Company. The pump must be capable of developing a minimum of 150 pounds pressure.

Material for the water tank to be placed on the truck has been ordered and is expected soon. Gus Ojala will do the necessary welding on the tank.

Meetings of the active fireman are held on Wednesdays at which time the wearers of the red helmets are trained in the best methods of combating destructive blazes on the desert.

SPORTS

Cubs Overpower Wildcats 21 to 8

The Lafferty Wildcats outthit the Joshua Tree Cubs last Wednesday night at Gilpin Field in 29 Palms but were unable to overcome the havoc wrought in a horrible second inning by a grand slam homer and six runs walked in plus other hits that gave the Cubs 16 counters. The game was a free hitting scramble on both sides.

Arnett scored first for the Wildcats after two were out and his long fly to left was dropped. Bolsters triple brought Arnett across the plate.

The Cubs in their half of the initial stanza got four singles and two free trips but could only count 2 runs.

In the second Lake, first up for the losers, homered for the only marker in that half inning. It was different when the Cubs came to bat. Pierce, pitching for the Wildcats, was in for a very rough time. Van Tassel was safe on an error, Miller, Arch and Leyhe walked, forcing Van across the plate. Garry then cleared the bases with his grand slam four bagger. Burns lost the next one also and counted. Harmon struck out for the first out. Humphreville singled, Ojala walked and both scored on Van Tassels double. Miller fouled out to the catcher. Six Cubs were walked in succession after Arch was safe on an error. This forced in five more runs and left the bases still loaded. Van Tassel cleaned them with his second double of the inning. Miller then pooped out to first and the inning ended.

In the third Arch replaced Van Tassel on the mound for the Cubs. He held the Highschoolers to six runs. Lake took Pierces place for the losers and allowed only three runs but the damage had been done. Burns got his second homer in the third inning.

For the Wildcats Lake led the hitting with a homer and a single in three official appearances. Hufard, Arnett, Bolster, Gillette and Gaston each hit at a .500 clip.

Garry was high man for the Cubs with a homer and two singles in three times up. Humphreville batted 2 for 3. Burns with two home runs, and Van Tassel with two doubles each hit .500.

On the mound Pierce gave up 9 hits and walked 12 to account for

18 runs in two innings. Lake, in four innings, allowed 4 hits and walked none. The Wildcats committed 4 errors. Pierce fanned two.

Van Tassel, starter for the Cubs struck out 1, walked none, and was touched for 4 hits. Arch allowed 10 hits, struck out 2, and walked 1. The Cubs miscued three times.

Score by innings	R	H	E
Wildcats 1 1 3 0 1 1 1	8	14	4
Cubs 2 16 2 0 0 1 x 21	13	3	

Ball Park Gets Mud Pack

Sportsmans Field ball diamond got a beauty treatment last week. First the "barbers" gave it the once over not so lightly with a blade then the "beauticians" moved in and laid on a couple of mud packs in order to get the park in shape for some ball games this summer. Clay from the vicinity of Mental-physic Institute was hauled in and soaked well after the preliminary shaving job was done. After a week of baking in the good old desert sun, the Sportsmans Club a-fairs, it will be hard to tell the infield from that at Ebbets Field or the Yankee Stadium.

Sports fans and civic minded citizens who rallied to the Sportsmans call were Gus Ojala, Sam Lafferty, Billy Royal, C. C. Brown and Mike Mallia. They loaned various pieces of equipment and contributed their time. The Club furnished the gas and manpower.

Bob Garry, Frank Leyhe, Gus Ojala, Fred and Don Marble spent many hours under the lights getting the field in shape for competition. There are still some finishing touches to be applied but by the end of the week it is expected that the diamond will be fast enough for snappy play. The outfield, too, was levelled off.

The Sportsmans Club at its last regular meeting voted to contribute \$25.00 to the Boys Club for its craft program and athletic fund. Permission was granted the PTA to install lockers in the school building. Bids were asked for the plastering of the inside of the Sportsmans Hall.

Baseball Results

The Kenney Druggists kept up their winning ways last Tuesday night to take a 13 to 10 decision from the third place Oilers. Until the sixth the Oilers were trailing with only three runs. In the last two innings they slammed out enough hits to get seven more. But the Kenneymen were safe with their 13 tallies tucked away. Nicoll pitched for the winners and Mann was charged with the loss. Nicoll struck out seven.

Completing the second round of league play last Thursday night the sizzling Broiler team cooked the Characters goose in a surprisingly low score contest. The final tally in favor of Ryan and his cohorts was 9 to 5. Ryan had the better of the pitching but Berryhill had slightly erratic support. Fireball Basil allowed only one hit and struck out 14 Marksmen. This leaves the Broiler bunch breathing hard on the necks of the leading Druggists.

League Standings

Kenney's	9	1
Broilers	8	2

Junior League Opens

The Joshua Tree junior ball players, the Bruins, were nosed out in their initial tilt last Friday night at the 29 Palms Field by the Side-winders. The score was 11 to 10 in favor of the Little Church team. The game was the second in league play.

In the first fray of the junior season on Tuesday night The Mix-on nine won from the Houser-Nichols Spark Plugs by an 11 to 4 count. The Tuesday games are curtain raisers to the senior encounters.

More detailed reports of the Bruin games will be printed as soon as a competent score keeper is developed.

"No Game" Pulls Big Crowd

More than a hundred car loads of expectant spectators ranged themselves around Sportsmans Field last Sunday night and awaited the start of a scheduled game between the Joshua Cubs and the Campus Retreat of Banning. They waited and they waited. The visitors were and continued to be conspicuous by their absence. Finally the onlookers formed a team and played the Cubs. The final score was reported as 183 to 98 — or thereabouts — in favor of etaoin shrdlu.

Dust of Destiny

The tiny flakes of yellow metal which the bearded miner sees in his pan was one of the far-reaching forces that accelerated the slow but steady western movement of the peoples of the world.

The discovery of gold at Sutter's Mill in January, 1848, precipitated the rush of '49, one of the great human treks of history. In that year California began to draw men as a magnet draws filings and the important thing about the whole business was, not the amount of gold dug from the hills, but the fact that its dramatic discovery publicized California throughout the world as a land of liberty and promise. The gold dust the miners panned from the stream beds was indeed the dust of destiny.

The finding of gold in California influenced the movement of peoples. A little more than a quarter of a century later another great event changed the character of civilization — the discovery and invention of the telephone.

California Water & Telephone Company

"Some Like It Hot..."

By Frances Barton

"SOME like it cold." Whether anyone likes it "in the pot, nine days old," you'll never know.

This Savory Meat Loaf is too good to last that long. It is an ideal hot-weather dish — it provides the main course for two meals — served hot at one; cold at another. And for picnic fare! Well, even husbands will go along with less reluctance if they know this delicious meat loaf will show up at lunch time, between slices of fresh bread, or on picnic plates, with potato chips and ripe tomatoes, cucumbers, or crisp pickles.

Savory Meat Loaf

1½ tablespoons diced salt pork; 4 tablespoons finely chopped onion; 2 pounds round beef, ground; ¼ cup quick-cooking tapioca; ¾ teaspoon salt; ¼ teaspoon pepper; 1½ cups crushed canned tomatoes.

Fry salt pork until crisp; add onion and cook until golden brown. Add to other ingredients and mix thoroughly. Bake in 10 x 5 x 3-inch loaf pan in moderate oven (350° F.) 1 hour, or until done. Serve hot or cold. Garnish with parsley. Makes 8 to 12 servings.

Vacation Bible School Held In Morongo

By Ruth Hale

For the first time in the history of Morongo Valley, a Summer Vacation Bible School was held. It was in session for two weeks, from nine until twelve. The program for the day was an opening hymn, a prayer, and then more hymns. Next classes were held for study of the lessons. Games were played at recess and then a cool drink and cookies were served. Then more songs and a resumption of the classes, a closing hymn and prayer.

It was your reporter's privilege to have had a part in the school activities by playing the piano and directing the singing. It was a very gratifying experience for they all loved to sing and there were many fine young voices in the group.

The teachers were Mrs. W. G. Geeson, Mrs. J. C. Scott, Mrs. Frank J. Reed, Mrs. Carl DeLand and Mrs. Ruth Hale. Mrs. John Lieck assisted in judging the handwork and made an attractive poster telling about the final program.

Pupils who attended were Gary Welcher, Johnny Welcher and Joan Welcher, Jeannine Reed, Jerry Reed, Leah Arnold, Jay Lieck, Bradford Sales, Sharon Sales, Shirley Penny, Janet Johnson, Arthur Ballard, Charlotte McCracken, Ruth McCracken, David McCracken, Philip Geeson, Paul Geeson, Regina Geeson, Patricia Scott, Philip Scott, Pansy DeLand, and Carol DeLand.

The cooperative spirit which existed throughout the two weeks of school between the teachers themselves and the children made it possible to accomplish a great deal.

Mr. and Mrs. Geil of Morongo Inn opened their attractive living room for the final program on Friday evening. Mrs. Holloway made up a beautiful basket of flowers grown in her own nursery and her gift was greatly appreciated.

The program enjoyed by parents consisted of songs and memory verses. The older children gave a fine dialogue and there were duets and songs both by boys and girls. The children and teachers alike were complemented for the fine work they had done.

Hand work was displayed and prizes were given for the best handwork and the best memory work.

Health For All

INFANTILE PARALYSIS

A mother's worries about her child getting sick are confined to no particular season. For instance, once winter is over and there is less chance of such things as colds and influenza, there are possibilities of diseases that seem to come with warmer weather. One of her greatest "vacation-time" fears is poliomyelitis, or infantile paralysis.

"Polio" strikes most frequently during the summer months, usually reaching its peak in late summer or early fall. The disease is caused by a virus so small that it cannot be seen under the ordinary microscope. It attacks nerve cells that control the muscles, most commonly the muscles of the arms and legs. The muscles may become weakened and, in the more serious cases, complete paralysis of the limb may result.

Most people think polio always brings permanent crippling, but this is not necessarily the case. More than half of those who get the disease never suffer weakened muscles or paralysis and, among those whose muscles are paralyzed, more than half recover without serious crippling.

Despite its popular name, "infan-

As an aftermath of the Bible School a picnic was held on Saturday evening at Sabathe's Meadow. A good time was reported by all.

tile" paralysis, the disease strikes people of all ages, although most cases reported are in children.

We still know very little about preventing polio, but if the disease is occurring in your community there are some precautions that will help lessen the chances of contracting it. Fatigue makes people more susceptible to the paralyzed form of polio, so avoid exercising too hard or getting overtired. Sudden chill weakens a person's resistance to the disease, and we take chances when we stay too long in cold water or plunge into icy water after being in the hot sun. Swimming in dirty or polluted water, or allowing children to wade in it, is also dangerous.

During a polio outbreak, keep children out of crowds, away from polio patients and from all other sick children, no matter how slight their illnesses might seem, since symptoms in an unparalyzed case or early symptoms in a paralyzed case may merely be considered a "cold" or "flu." Doctors advise postponing tonsil and adenoid operations during an epidemic since children are more vulnerable to a serious type of polio infection at the time of and for a while after such surgery.

General habits of cleanliness are important, too. Protect all foods from flies. Garbage in the home and in the street should be kept covered and disposed of promptly. Remember to wash your hands before eating to avoid carrying germs into the mouth.

While we have no specific preventive for polio, we have learned much about treating it. Prompt medical care often wards off possible crippling effects, so the important thing for a victim of polio is to get him under the care of a good doctor at once. Early symptoms of polio include headache, listlessness, fever, upset stomach or a cold. When a child shows any of these signs, call the doctor at once so that he can make the wisest decisions for the sick child's care and treatment as early as possible.

For information on infantile paralysis, consult your family doctor, or get in touch with your local chapter of the National Foundation for Infantile Paralysis or write the national office of the Foundation, 120 Broadway, New York, 5, N. Y.

In the next article, the onset of TB will be discussed.

New Sulfa Durg Used for Coccidiosis

One of the newest drugs is being used in a new way by Dr. R. A. Bankowski, Veterinary of the College of Agriculture of the University of California, to prevent coccidiosis, one of the most wide-spread and costly diseases of poultry ac-

cording to Lloyd P. Sharp, Assistant Farm Advisor.

Sulfaquinoxaline, the new Sulfa drug, has been fed before infection, instead of after an outbreak of the disease occurs. Tests with 10,000 birds on several poultry ranches this spring were designed to learn the dosage needed for best results and how often the treatment should be given. Different amounts of the drug were given in the feed continuously and at various intervals.

The ideal treatment would be to feed chicks enough of the drug about the time the disease was expected to appear so as to protect them from a severe attack, yet allow them to have coccidiosis in a mild form. This would prevent serious injury during infection and leave the birds immune afterward. Field tests were set up with this goal in mind.

Coccidiosis occurs wherever poultry is raised. It attacks the young growing chicks each spring when they are brought onto farms where the disease has occurred before. It may cause severe losses, but chicks are immune once they recover. The germ causing it is very hard to kill.

The experimental work with this new drug is supported in part by a grant from Merk and Company.

"The Whispering Skull"**Sing A Song For Washday**

By Frances Barton

THIS is the way we wash our clothes,
Wash our clothes, wash our clothes;This is the way we wash our clothes,
Early Monday morning.

What that way was isn't revealed in the old rhyme, but one thing we know—

it involved drudgery that has been happily eliminated by modern laundry aids. And isn't that something to sing about, especially if there is a baby in the family!

Keeping baby sweet, cuddly, and comfortable is no problem beyond the requirement, usually, of a daily bath and wash schedule. Even if you do not have automatic laundry equipment, there are still plenty of helpers in modern laundry methods to take away washday blues. Simple ways to remove stains, mild soaps and water softeners that are easy on clothes and easy on hands. And to keep baby's little garments softly white, you will want to use those special bluing flakes that are added right to the suds to brighten clothes while they are being washed. Very few of baby's things are starched, but for the toddler's little dresses, you will want to add to your starch solution the waxlike ironing aid that eliminates sticking and pulling and enables the iron to glide over clothes leaving them satiny smooth and dirt-resistant.

Stain removal is one of the major problems in keeping baby's clothes fresh, but here are a few rules, and remember, hot water or soap may set a stain, so remove stains when fresh and before laundering.

Cod liver or other oil: Sponge with carbon tetrachloride while fresh; then wash in warm suds. Old stains require bleaching with peroxide; then thorough rinsing.

Egg or meat juice: For cottons, soak in cold water. Wash in hot suds. For woollens, sponge with cold water. Wash in lukewarm suds.

Fruits or fruit juices: For cottons, pour boiling water from height of 2 or 3 feet through strain. If stain remains, use peroxide; rinse. Wash. For woollens, sponge with cool water. If stain remains, apply warm glycerine, let stand a few hours, and rinse well. Wash.
